

Houston Lodge Theosophical Society

Linda McQuinn

I was born in Karachi, which was then the most important city of British India. My father was in Real I first became aware of the Theosophical Society when I took TM instruction from Fali Engineer. I was drawn to TS because it is all religions, and no religion - but a unity in spirituality. I started attending some of the lectures at the Houston Lodge in 2007 and officially joined in 2011. I was glad to find a place where spirituality could be discussed with like-minded individuals. I am committed to meditation and to green living practices - and my grandchildren! I spend time between our home in Cypress and our home in the hill country, which I use as a retreat for meditation.
